Small avalanche Lower Nose

Bridger Bowl Bridger Range 11/24/2022 Code SS-R1-D1-I Elevation 7500 Aspect E

Latitude

45.81560

Longitude

-110.92300

Notes

Skiers at Bridger Bowl observed a small avalanche that was likely human-triggered on the Lower Nose. New snow and wind combined to created instabilities on slopes. The ski area is closed and represents a backcountry snowpack until the ski patrol begins avalanche mitigation in preparation for the opening.

Number of slides

Number caught

Number buried

Avalanche Type

Soft slab avalanche
