

Skier triggered wet Slide off of The Nose

Bridger Bowl

Bridger Range

5/3/2025

Code

WL-AS-R2-D1.5

Elevation

7800

Aspect

E

Latitude

45.81560

Longitude

-110.92300

Notes

From obs. "We were above the entrance to Exit Chute and triggered a slough [slide](#) that slid down one of the gullies that emptied into PK bowl. It appears to have followed an existing [slide](#) path, terminating in the top of what looked to be a significant existing avalanche runout. The [slide](#) looks pretty wide but not deep."
